alireza2001amiri@gmail.com

OBJECTIVE

Eager to find and develop solutions for upcoming problems by a combination of innovation and hardworking. Able to collaborate in diverse fields to achieve the goals. Experienced in his field of study, yet keen to learn new skills and explore new challenges.

EDUCATION

M.S in Mechatronics | K. N. Toosi University of Technology University

SEP 2023 – PRESENT

B.S in Electrical Engineering – Control Orientation | Shahed University

JUL 2019 – JUL 2023

- GPA: 16.03/20
- Thesis title: *Design and Implementation of a PID-based Control System for Achieving Stable Magnetic Levitation*

EXPERIENCE

Maintenance and Repair Engineering Internship | MAPNA GENERATOR ENGINEERING & MANUFACTURING CO, Karaj, Iran

JUN 2022 – SEP 2022

Summer Internship

- Getting insight on Industrial large-scale factories and familiarity with the basic performance of industrial machineries
- Learning about Industrial Electronics and electric panel
- investigating datasheets of different machineries and understanding the idea of navigating through it to the right section and page
- Earning experience with the process of fault diagnosis and the procedure to solve the problem in the most time and cost-efficient way.
- Experimenting with Industrial control systems (LOGO, PLC) using the available equipment.

Soft Skills: Problem-Solving, Time Management, Logical Thinking, Team Work, Documentation

Translation | Haftonim Publication

MAR 2021 – JUL 2021

First experience in book translation

- Translating of a scientific teenage book named "**Archimedes and the Door of Science**", which was later published by Haftonim Publication.
- Have a great experience dealing with English literature and finding an appropriate Persian translation for the text.

Soft Skills: Time Management

NFT Marketing | Self Employed

JAN 2022 – JUL 2022

Part-time job

- Running my brand named "Callipen" for creating and selling Calligraphy artworks.
- Reaching a good number of worldwide sells by taking advantage of marketing strategies

- Experiencing international communication with people of different countries and finding a common purpose, regarding the geographic and cultural diversity.
Soft Skills: Time Management, Mind Mapping, Communication

SELECTED PROJECTS

Magnetic Levitation | DR. Mohammad Hossein Kazemi

MAR 2022 – SEP 2023

B.Sc. Thesis

- Design and implementation of an Arduino-based control system to levitate a permanent magnet using an electromagnet and two hall-effect sensors.
- Experimenting with several methods of control, including PID and H-infinite and determining the best.
- Sketch, implement and optimize an electrical circuit to achieve the desired performance.
- Could achieve stable and permanent Levitation after identifying system model and implementing the PID controller which was designed using Simulink.

Technical skills: Arduino, MATLAB, Simulink, Proteus

Soft skills: Time Management, Problem Solving, Documentation, Logical Thinking

Speech Emotion Detection | DR. Hannan Lohrasbi

JUL 2022 – AUG 2022

Digital Signal Processing (DSP) Project

- Finding a suitable Persian dataset for the desired purpose
- Training a Machine Learning model to detect the emotion and gender of the speaker from a given voice recording
- achieving an accuracy of 60% at the best case.

Technical skills: MATLAB

Soft skills: Problem Solving, Logical Thinking

Monitoring and Recording ECG Signal and Heart Rate | DR. Mohammad Pouyan

JUL 2023 – JUL 2023

Assisting in a biomedical B.Sc. Thesis

- Design an ESP32-based project to record ECG signal using a pulse sensor and save the data for further medical usage
- Having a chance to learn about biomedical sensor and devices, due to the need of medical knowledge for developing the desired device.

Technical skills: Arduino

Soft skills: Logical Thinking, Problem Solving, Team work

SKILLS

Programming: Python (*pandas, NumPy, sklearn, TensorFlow*), Arduino, Verilog, C++

Engineering Software: MATLAB, Simulink, Proteus, Arduino, ISE

Others: Machine Learning algorithms and implementation, Microsoft Office

Soft Skills: Time Management, Problem-solving, Logical Thinking, Mind Mapping, Documentation, Communication, Teamwork

LANGUAGES

Persian: Native

English: Fluent

Arabic: Conversational

CERTIFICATES:

- Business Training Course, Institute for training of Tehran Chamber of Commerce (ITECC)
